Cell line projects summary

Method	Cell line	Time for completion (month)	Construct size targeted (base pairs)
Guides only	HT-29	2	NA
**Guides + repair template (HDR, short oligo)	Hela	3	54
**Guides + repair template (HDR, plasmid)	Hela	7	1 521
**Guide + repair template (HDR, short oligo)	HASTR/ci35	4	20
Average		4	

**Project with clonal expansion
Electroporation protocol development
(~2 weeks)
